Former Clare commission chairman passes

By Pat Maurer
The Clare County Review

Former Clare County Commission Chairman David A. Hoefling, who served in the township board for twenty years, died on Wednesday.

Karen Bochenski, who lives on Rock Road meeting October 8th.

Cora Winterfield, who serves on the Board of Directors,

A press release from the Clare County Sheriff’s Office said that the body was transported to the medical examiner at the mid-Michigan Regional Medical Center in Mt. Pleasant.

He continued, “Our current process deals directly with County ordinance enforcement to capture just that fine that is paid directly to the County. The County Ordinance 2016-1 the ordinance that requires or忽略 the rule will be impacted. There is an appeal process for the fine. More strict enforcement due to common occurrence of trucks ignoring the rule will be impacted.”

He said those funds would help the township with the costs of enforcement.

Bruce Tkachuk said, “The motion would have to be made at the next regular meeting of the Board to remove the ordinance.”

He said that the ordinance to remove the township ordi-

nance “That has failed before,” he said.

**County Vehicle-Deer Crashes Edge Up**

By Pat Maurer

*October 15, 2019*

The Michigan State Police is urging drivers to be careful in the upcoming hunting season. Deer crashes are more frequent now than other times of the year. Fall brings deer, deer menjadi mei rah, and a steady flow of deer crossing the roads in and through the county.

By Pat Maurer

In the northern part of the state, deer are more active in spring and fall, with the most injuries. Drivers are urged to watch for them and to yield to them, as they travel along their migration routes.

In the southern part of the state, deer are more active in spring and fall, with the most injuries. Drivers are urged to watch for them and to yield to them, as they travel along their migration routes.

The Michigan State Police estimates that deer crashes occur year-round, but be especially alert in spring and fall.

Deer are herd animals, so when one deer is hit, others might also be injured. Deer are often feeding along the roadsides, and drivers should be even more careful.”

**Lost Towns of Eastern Michigan - Meredith**

Clare County’s Meredith was located in the Traverse City area. In 1884, it was established as a town, and had a population of 1890. The town was known for its saloon and brothel, and is also known for its bawdy houses. One of the brothels, the “Meredith Club,” was said to have a reputation for being the worst of them all. The town was closed in 1895, and the buildings were moved to the Traverse City area. The town is now remembered for its bawdy houses and its популярity.

October is Breast Cancer Awareness Month

Sherry Shares Her Own Breast Cancer Journey

Sherry Gatrell entered it in a special show to raise awareness and help others and family.

KYLE’S COMPOUND
1218 Commerce Dr. 
Surrey Township
(989) 588-8011

According to the new ACS report, 80% of breast cancers are diagnosed in women older than 50. The probability of a diagnosis is higher for women who are over 50 years old, with nearly three times more likely for women in their 60s, 70s, and 80s.

Breast cancer is one of the most common forms of cancer affecting women in the United States. Each year, over 252,000 women are diagnosed with breast cancer, and more than 41,000 deaths occur as a result.

Sherry, now a survivor, shares her story for breast cancer awareness and to encourage others to be proactive about their health.

Sherry, on the other hand, shares her story to inspire others to stay informed about breast cancer and to encourage early detection and treatment.

Sherry’s story is a testament to the importance of early detection and timely treatment. It serves as a reminder that with the right care and support, recovery is possible.

According to the American Cancer Society (ACS), the overall survival rate for breast cancer has increased significantly over the years. In the early 1980s, the 5-year survival rate was around 80%, while in 2020, it has increased to over 90% for early-stage breast cancer.

However, breast cancer is also associated with certain genetic factors and family history. Women with a family history of breast cancer have a higher risk of developing the disease.

According to the ACS, the risk of breast cancer increases with age, and women older than 50 are at a higher risk. However, women of all ages can benefit from cancer screening.

Sherry’s story is a powerful reminder of the importance of early detection and timely treatment. It serves as a testament to the power of perseverance and the impact of support systems.

Sherry’s story is a powerful reminder of the importance of early detection and timely treatment. It serves as a testament to the power of perseverance and the impact of support systems.
Silence about Chinese authoritarianism is deafening.

I’ve been jacked up. I play basketball and watch basketball. I got jacked up, I thought I was playing NBA basketball. I got jacked up, I was playing basketball on TV. I was like, ‘What’s going on?’

That’s why I have taken a more measured stance in China’s dumpster fire over the last few years. I thought, when I don’t even try to yell about it, all of those NHL games on the television are like a lie.

For those uninitiated, hockey games have been taken to the streets in China. And I went to protest the Chinese government in a so-called restriction that makes the footballers have to do mannequin challenges.

In the midst of all that, there was a short-term narrative as a harmless twist in the narrative of democracy. The Chinese government, however, defended the democratic and handed down an apology and apologized and apologized, and apologized some more. It’s not as surprising to me.

Most of us would be jacked up because China, a real democracy, is the only country where we can’t get free beer. It’s not like all of us to resist. The number of people playing basketball in China, there’s a whole new generation of basketball players. It’s one thing I could ever imagine.

I like one’s basketball game, a lot of Chinese are not. And the ball is so big, I don’t think they’re really learning the basics of how to play the game. The Chinese are so good at it, but I was jacked up when I saw it on TV.

People who are watching basketball games in China are like, ‘What’s going on?’. I was like, ‘Oh no, this is not a basketball game anymore’. The game has been delayed due to a strike at the NBA. The overpass, then shortly after that, the next year, why the rough delay? It’s because of the strike. It’s like, ‘Why is this happening?’

Initially our match from the CCRC. The Roads Commission on the Hong Kong Standard. The Golden State of the San Antonio Spurs and the San Antonio Spurs. He is an outspoken Trump supporter and when it comes to criticism of Donald Trump, he does have some responsibilities to his constituents.

Hypothetically, a lot of people are saying similar things. The NBA players have been delayed by the strike, but we can com- pare it to our situation. Silver only has to finesse the situation to get his underlying at some point. For the CCRC, I will remind you that the NBA has over 300,000,000 people playing basketball there. The Chinese are so good at it, but I was jacked up when I saw it on TV.

And I’m not sure how long that’ll be, but the Chinese are just muzzled when it comes to what they can say. The atmosphere. He was com- ing up here. I think I’d say it was the gap between U.S. and China, it’s not basketball playing icons in China. It’s China, not basketball. Every chance I play basketball and watch basketball, I never fail to look at the scoreboard. It’s China, not basketball.

President Trump, the owner of the Golden State Warriors, has been muzzled when it comes to what he can say. The atmosphere. He was coming up here. I think I’d say it was the gap between U.S. and China, it’s not basketball playing icons in China. It’s China, not basketball. Every chance I play basketball and watch basketball, I never fail to look at the scoreboard. It’s China, not basketball.

Halloween Spook-Tacular on Tap for This Weekend

Pastor Scott Harper

What does *best* mean? At McLaren, *best* isn’t just an adjective we use for things, it’s the backbone of our philosophy. *Best* means being at the leading edge of technology and taking the time to be by your side when you need us most. It means having the *best* orthopedic care available. It means taking care of your family the way you want it... McLaren Central Michigan’s Orthopedic Center provides expert orthopedic care for the Mt. Pleasant and surrounding community. We specialize in sports medicine, joint reconstruction, foot & ankle, hand and upper extremity injuries. McLaren’s orthopedic team collaborates with specially-trained nurses, physical therapists, and joint replacement experts, can ensure that your procedure has the best possible outcome to help you on your road to recovery. McLaren Central Michigan has a strong focus on wellness, not just treatment. We believe in one thing – “Doing What’s Best”.
CFD celebrates Fire Prevention Week with youngsters

By Pat Maurer

October 7 marked the first day of Fire Prevention Week and Clare Fire Department spent the week with Clare Primary and area Amish Students, weeks with Clare Primary School walked down to the fire station and a ridgeline at Fire Station 2, said "Have an Escape Route." Clare Fire Chief James Chapman said, "We encourage everyone to have, and practice a fire escape plan and use both carbon monoxide detec- tors and smoke detectors. It's important to check the batteries in the detectors twice a year and to remind those detectors every ten years." October 13 marked the kindergar- ten class of Class Primary School walked down to the station where they learned all about being a firefighter, met Smokey the Firefighter, learned some fire safety lessons and even learned how to "Stop, Drop and Roll." a tech- nique to put out flames if you see a fire. After all of the fun and instruction they all got to ride back to class in one of the fire trucks. Chief Jim Chapman said during the week, firefighters also visited first and second grade classrooms and held a special assembly for 3rd and 4th graders at Clare Public Schools.

The week also included a special day when fire- fighters visited with Kin- dergarten students some lessons in fire-safety, a tour of the fire station and a ride on a Fire Truck. For those students who live in Amish communities, firefighters spent some time with Lt. Fire Education Officer Kevin Wilber (far left) gave lessons on fire safety to Kin- dergarten students. Photo by Bob Guiler

A Amish youngsters at one of the eight schools firefighters visited, last week, got to look over some of the firefighting equipment after a ride on a firetruck. Photo by Chief Chapman

Kids enjoy a visit from Smokey the Firefighter. He doesn’t say much, but makes a lot of noise. “Chief Chapman said. He went to each Amish school to show- ers how to use the firefighters equipment and give them a ride on the firetruck. Fire Prevention Week pays off, Chief Chapman said. The Tuesday this week, firefighters were called to a local Amish residence full of potential. Damage was minimal and no one was injured because the firefighters visit to his school last week.”

Kinderpiners learn how to "stop, drop and roll" a technique to extinguish flames if their clothing can catch fire from the firefighters Ernie Wilson. Photo by Bob Guiler

Harrison drops key game at Shepherd

By Ben Murphy

Senior writer

The Bluejays scored a turnover and took advantage of a missed field goal attempt by Pinconning in the first two minutes of the game. They took a 7-0 lead in the second quarter, scoring twice more before the half ended, allowing them to pull away to a lead of 26-0 at the break.

Harrison (4-3 overall, 4-2 in the Pioneer) had four turnovers, including three interceptions and a fumble.

"The whole team was just not on the same page tonight," head coach Kelly Luplow said. "They gave up a few big plays but overall, I think it was a good job of that. Once they did that, there was a miscommunication, but they got the upper hand mentally and 45-0 is hard to overcome that."}

Game plan was to bring the Hill from there," head coach Kelly Luplow said. "We are in the playoffs at 5-1 but we would like to finish strong and with two wins," he said. "I think it's important for our attitude and as far as we will go in the tournament."
Coleman girls second, boys third at Mustang invite

**By Ron Murphy Sports Writer**

Coleman had its chances. The Eagles weren't able to capitalize enough on those opportunities however, as they fell it at home to Jackson Pine Conference opponent, 1-3. “They were moving in the right direction,” said coaches Travis Reshall. “This year we have had four losses by less than two scores. We just need to finish drives and finish games.”

The Eagles were able to hold their first drive, but cuffed off the drive with a short two-yard touchdown run by Tim McMillan. The second, third, and fourth quarters saw the Eagles unable to get into the end zone, falling 20-6.

Playoff games:

Oct. 21 @ Gladwin High School

JV VOLLEY BALL TIME

Oct. 21 8:00PM

Oct. 26 @ MHSAA LP Regionals

Cross Country Meet

Oct. 24 @ MONTABELLA HIGH SCHOOL 6:30PM

The Eagles finished with 294 yards rushing, with Seth Hanna leading the way with 115. Noah Wrona was 10 for 16 with 157 yards and also commanded the defensive play of Jeffrey Cansomos and the defensive line.

Farwell (6-2 overall, 1-0 Mid-State Conference) is set to host rival Clare (6-1, 5-1) tonight (Friday). The Pioneers come in 56th of the season, 20-0 to Ravenna. The Comets were last year’s meeting 56-0.

High performance has a name.

Coleman up in prime field a Mustang fumble set in the second frame. After able to find the scoreboard quarter, the Comets were never gave up. Very proud played with heart and they our guys, they fought, they game defensively against ever, falling 20-6.

The Comets were near, but not back on the right side of the scoreboard Friday night. The Comets’ weren’t able to capitalize on those opportunities however, as they fell at home to Jackson Pine Conference opponent, 1-3. “They were moving in the right direction,” said coaches Travis Reshall. “This year we have had four losses by less than two scores. We just need to finish drives and finish games.”

The Eagles were able to hold their first drive, but cuffed off the drive with a short two-yard touchdown run by Tim McMillan. The second, third, and fourth quarters saw the Eagles unable to get into the end zone, falling 20-6.

Playoff games:

Oct. 21 @ Gladwin High School

JV VOLLEY BALL TIME

Oct. 21 8:00PM

Oct. 26 @ MHSAA LP Regionals

Cross Country Meet

Oct. 24 @ MONTABELLA HIGH SCHOOL 6:30PM

The Eagles finished with 294 yards rushing, with Seth Hanna leading the way with 115. Noah Wrona was 10 for 16 with 157 yards and also commanded the defensive play of Jeffrey Cansomos and the defensive line.

Farwell (6-2 overall, 1-0 Mid-State Conference) is set to host rival Clare (6-1, 5-1) tonight (Friday). The Pioneers come in 56th of the season, 20-0 to Ravenna. The Comets were last year’s meeting 56-0.

From December to May, we do something every month. The Change stays in Clare, and we do special orders: shirts, bracelets, magnets to help spread mental health awareness. Our team’s October project, as the second annual Be the Change game, it will also double as the Jack Pine Conference Pioneer’s home game, it will also double as the second annual Be the Change. It’s the volleyball team’s October project to help spread mental health awareness.

Clare head coach Shannon Zinser said, “We really played well at times, especially in the second and third sets. We scored 110 points overall, outscoring them by 10 on the night. Volleyball is one of those games where small points don’t necessarily matter though. I told the gals pre-match that we need to flip the statistical categories from our first match against them, and we did that; we just didn’t finish.”

The Pioneers were led by Bailey Taylor, with 13 kills, 21 digs and two aces. Anna Butz added seven kills and four aces. Skylar DeLuca had seven kills and three aces. Kaya Achie Mckinley had 45 assists, 13 digs and three aces. This team has the ability to finish a season in a great place, we just have to get up in the last few games.”

For the Eagles, Seyer Buntzel had 23 kills, 24 digs. Max Fetzer added 11 kills. Madison Travis had four kills, two aces, one block and three assists. Clare head coach Shannon Zinser said, “After a long, tough match the night before against Clare, we were ripe for a let-down, but it didn’t happen. Actually, this match was very important in the sense of seeing how they wanted to compete after a tough loss. Definitely learned a lesson from the last couple of tough matches where we didn’t come out and compete. I’m very pleased with the result.”

On Thursday, Oct. 10 against Clare, it was another difficult match the night before. But they made us work hard and we got the win so we will take it.”

For the Eagles, it was also a step-up match, winning consent; thinking they actually outscored their opponents on the night.

Another great tactical assistant coach John Poldek said, “We really played well at times, especially in the second and third sets. We scored 110 points overall, outscoring them by 10 on the night. Volleyball is one of those games where small points don’t necessarily matter though. I told the gals pre-match that we need to flip the statistical categories from our first match against them, and we did that; we just didn’t finish.”

Definitely learned a lesson from the last couple of tough matches where we didn’t come out and compete. I’m very pleased with the result.”

For the second year in a row, the Clare volleyball team is hoping to host an event that has an impact on countless lives. On Monday, when the Lady Pioneers faced Vestaburg in straight sets, 25-23, 15-25, 22-25, Farwell picked up a win at Shepherd on Wednesday. Final Demolition Paves Way for Heart and Vascular Center

Final demolition of the former Saginaw Building, also known as the original Midland Hospital, is now underway, kicking off phase two of a three-year construction project on the campus of MidMichigan Medical Center – Midland. This phase consists of MidMichigan’s new Heart and Vascular Center which is slated to open in fall 2020.

The $62.8 million two-part project wrapped up in June 2019 with the opening of the Center later next year. The $52.1 million was dedicated to the new Heart and Vascular Center, has brought more than 4,000 inpatient discharges during fiscal year 2019. The remainder of the $10.7 million is dedicated to the new Heart and Vascular Center, which will provide diagnostic, procedural and surgical heart and vascular services.

"Time is muscle and when it comes to caring for the heart, every second counts. Having all of our services under one roof will provide an environment of seamless, coordinated care for our patients," said William Felten, M.D., F.A.C.C. "The proximity of our services will also improve workflow efficiency, communication and our ability to deliver for our health care providers and staff. But, more importantly, it keeps our patients close to home, close to their loved ones and those that mean the most." 

Phase one of the project wrapped up in 2017 with the opening of the new Orchard Building, which houses imaging and laboratory services, an ambulatory clinic, cardiovascular testing, the clinical research office, as well as physician offices.

MidMichigan Medical Center – Midland is a 350-bed acute-care hospital. With a focus on providing high-quality care close to home, close to staff. But, more importantly, it keeps our patients close to home, close to their loved ones and those that mean the most."

For more information on the new Heart and Vascular Center, visit www.midmichigan.org/heartvascular.
Timberliner Fall Color Tour coming to Clare Saturday

By Pat Maurer
Correspondent

Saturday afternoon, Clare will be host- ing approximately 175 guests coming to Clare from Cadillac for a round-trip fall color tour. Thanks to the Steam Railroading Insti- tute, The Timberliner Diesel will arrive in Clare around 1 p.m. and spend three hours enjoying the Clare community and businesses, grabbing a bit to eat at one of Clare’s many restaurants, seeing some pic- tures, or touring the restored historic old Clare Depot, which just celebrated their one year anniversary of the depot’s grand opening just a week ago on October 12th.

Last year’s ribbon cutting celebration marked the culmination of the massive project to move and renovate the historic old building, which started with an idea brought to the City by Railroad enthusiast Larry Lewis more than 17 years ago. Lewis believed something should be done to revitalize the deteriorating old rail depot, which was rebuilt in 1895 after it burned, according to a history pre- sentation by City Manager Ken Hibl at the grand opening last year. Over the years, Hibl said more than $750,000 was raised in cash and in-kind revenue. “More than $750,000 contributed to the project,” Hibl said, and MMC/AA donated the property that the depot was moved to in 2014. The community, Clare Depot Preservation Committee, and the Clare County Commission has been working toward developing the more than 120 year old Clare Railroad Depot building into a community center, railroad museum, and headquarters for the Clare County Arts Council for many years. Today the newly renovated and land- scaped depot houses a railroad museum, gift shop, the Clare Area Chamber offices and on the lower level, the Clare Arts Council. Everything is available there for anyone with an elevator for easy access to the Council’s headquarters. The site also features two train cabooses, which are next on the agenda for renovation. The interior features items from the Lewis collection and many more donated by generous patron. The new gift shop features memorabilia and art related to the historic depot and many items from the Arts Council. Many of the Depot’s design features, including the original decorative wrought iron railings from the old building were refurbished and are now a proud part of the building. Clare Chamber Director Damon DeBois said, “Work done by Bob Blaney and his crew to the interior has put a new light on the freight room. A lot of changes would surprise visitors who haven’t been to the Depot since its opening last Octo- ber.”

Saturday afternoon, Clare will be host- ing approximately 175 guests coming to Clare from Cadillac for a round-trip fall color tour.
